

## ◆ PROTECTION TREATMENT

# ANTI-GRAFFITI FILM

A preventive and efficient solution against the most frequent surface deterioration in urban areas.

### PROPERTIES

- Protection against all kinds of graffiti (ink, paint, acid, etc.).
- Protection against corrosion and pollution.
- Makes cleaning easier.

### STRONG POINTS

#### For painted surfaces

- Easy cleaning of graffiti without marking or damaging the surface.
- Easy to replace in case of wear (low-maintenance).
- Easy to apply.
- No interruption of onsite activities during the installation.
- Affordable and environmentally-friendly.
- Unlimited film customization.

### APPLICABLE SUBSTRATES

The film can be applied on all smooth surfaces (metallic, polycarbonate, polyester, etc.), even painted: street furniture, car body, cladding, etc. Also available for 2D or 3D surfaces.

### APPLICATION PROCESS

GSDI anti-graffiti films can be applied indoors or outdoors on a perfectly clean surface. If the surface is damaged, it has to be repaired beforehand. The application has to be done by professionals. Our teams are experts certified by the biggest film suppliers and manufacturers. Our teams are well-equipped. For outdoor high-rise work, they will use aerial lifts, scaffolding or rope and wear safety harnesses. The intervention area will be marked out. Interventions are possible 24/7.

### APPLICATION FIELDS

- STREET FURNITURE AND PUBLIC TRANSPORT (COACH, BUS, UNDERGROUND, TRAIN).
- METAL FACADES.
- SHOPS AND STORES.

...

### ◆ FEATURES

- Printable tinted film.
- Easy to clean (resistant, no need for special cleaning).
- Possible combination with other features: thermal, anti-intrusion, printed, publicity, etc.
- All film ranges are SBI-tested (limited fire and smoke propagation) and can be used in all public facilities.
- Up to 10-year warranty for indoor use and 3-5-year warranty for outdoor use depending on the inclination of the substrate.
