PROTECTION TREATMENT

ANTI-INTRUSION SECURITY FILM

An efficient solution to improve the resistance of glazed surfaces and to limit vandalism, intrusion and accidents.

PROPERTIES

- Retains broken glass.
- Improve glass resistance.
- Efficiently delays the progress of the intrusion.

STRONG POINTS

- Transparent (invisible).
- Protects glazed surfaces against projectiles (during a demonstration for example) and vandals.
- Avoids injuries due to broken glass.
- Deterrent for burglars.
- Ensure building protection until the replacement of the windows.
- Covered by most insurance companies.
- The film can be replaced in case of wear.
- Meets public safety standards.

APPLICABLE SUBSTRATES

The film can be applied on all straight or inclined glazed surfaces (window displays, windows, doors, glass roofs, glass walls, etc.).

APPLICATION PROCESS

The security film is applied indoors on the glazed surface. The application has to be done by professionals. Our teams are specially trained in our school and certified by the biggest film suppliers and manufacturers.

Our teams have personal safety equipment. For outdoor high-rise work, they will use aerial lifts, scaffolding or rope and wear safety harnesses. The intervention area will be marked out. Interventions are possible 24/7.

APPLICATION FIELDS

ALL PLACES EXPOSED TO RISK

- SHOPS (JEWELRIES, LUXURY, HIGH TECH, ETC.).
 - POLICE STATIONS/LAW COURTS.
 - PUBLIC FACILITIES (MUSEUMS, LIBRARIES...) AND ADMINISTRATION OFFICES (CITY HALLS, AMBASSIES, ETC.).
- ...

FEATURES

- Easy-care (resistant, no need for special cleaning).
- Printable transparent or opaque film.
- Possible combination with other features: thermal, anti-scuff, publicity, etc.
- Our film ranges are SBI-tested (very limited fire and smoke propagation) and can be used in all public facilities.
- Up to 10-year warranty for indoor use and up to 5 years for outdoor use depending on the inclination of the surface.
